About This Game

DESCRIPTION

Have you ever invented your own worlds? Perhaps you managed to think out one of them so well that you literally immersed in it? Sometimes, when the soul is badly bad, you just want to take it and find yourself in a fantasy world where everything is fine, but there are no problems. But ... But suppose that in this world, you have terrible consequences for him, carrying a part of your problems into your own fragile world.

And now, now your world is bursting at the seams because of you, and you are simply stuck in it. The game is a three-dimensional platformer-puzzle with elements of horror and parkour. The visual part of the game is made in the style of geometric surrealism.

This is a fun NES Style game that you can play on Halloween or any other day.. very cool game hope it goes MP. Trash race sim. No idea why this was one of the most recommended racing sims.. Interesting.... I was like NANI!?

how can i lost in a normal first campaign IMPOSSIBLE!! I REKT THAT BEACH!!!!
i god 2 and that beach got 1 round .

This game is very interesting... but need improvement compare to the price

I must admit that I thought "Dull!" after the first few seconds of watching the trailer video. Then I saw that the game has more to offer than just clicking text boxes, like 'Racing'; I ended up buying this game, which I didn't regret: the game is inspired by the Impossible Quiz (series), has a lot of fine humour and at least knows some (great) references to (my favourite) series Lost: 4-8-15-16-23-42 ((un)lucky numbers), dynamite, which was found on the Black Rock (boat) etc. and HP and the Philosopher's Stone; Chessboard Chamber ;-). It's a Memory Game (remember what you chose towards an ending!), it's fun and challenging; it also requires some out-of-the-box thinking if you want to make it to at least the most endings. Speaking of which, I considered a few endings unfair, especially because I'm not Russian.

Definitely recommended for visual thinkers - 8/10. Absolutely love this game. The whole family plays and it's been a blast. Completely worth the money!!!

I have nerve and muscle damage in my primary arm and this has been a good way to move it and have fun.

Thanks,

:)k. An Instant Childhood Point-and-Click Classic from the Days of my Childhood, which consist of the old MS-DOS, Windows 3.1, Windows 95, Windows 98 & Windows 98SE PCs. Another Personal Favorite game of mine in which you help Putt-Putt get back Pep, his Calculator, History Report & Smokey the Fire Engine Lunchbox which are scattered across The Time Continuum in 4 Different Time Periods: The Mesozoic Era (220-64 Million BC), The Middle Ages (410-1499 AD), The American Frontier (1800-1929) & even The Distant Future.

Putt-Putt Travels Through Time is also out for the iOS App Store if you want to play it wherever you go on either your iPhone or iPad.. I gotta say that I official found this game easy and fun.

What you gotta do is get the Frog Princes to kiss their brides. Boom they are human again.

Short and fun. I played 4 hours on it.

The only thing I hated is the glitches. Off and on. >.<. This game is an action adventure obviously inspired by Zelda but adds a lot more depth to difficulty and exploring; creating a wonderful unique game.

The sprite work is a little above GB/GBC with way more colours, the music is varied and has a few very earwormy pieces, dungeon design is challenging and fun, exploring with new abilities is addicting and rewarding.

A must own for fans of the genre that look for more challenge. Edit: Now with even more optional content, bugfixes and controller support!
